

SODIUM THIOSULPHATE POWDER OF PURITY 99%

DESCRIPTION

This product note describes the specification for Sodium Thiosulphate powder Any product supplied under this specification must meet the properties described in the attached specification. The chemical must be properly labeled in compliance with the present national and international laws and regulations concerning transport, health, safety and environment. A Safety Data Sheet must be provided by the manufacturer/supplier.

DIRECTIONS FOR USE

Transfer the product into the Ballast Water Dechlorination Chemical tank.

Note: Please, advise and follow existing guideline from your ballast water treatment system on the operation

Code: 161163312

SODIUM THIOSULPHATE POWDER OF PURITY 99%

used to de-chlorinate ballast waters prior to discharge to the environment

Features

- Readily soluble powder
- Long shelf life

PRODUCT CHARACTERISTICS

Appearance: White Crystals or crystalline powder
Density [g/ml]: 1.2 to 1.3 kg/m³
Freezing Poin [°C]: -10 Deg C (30% solution)
Odour: Sulphurous

TECHNICAL DATA

Odour: 99% min
