

Chloride Test Kit

Tablet Count Method

Item no.: 161166430

Add tablet to a 50ml or 100ml sample.

Add more until a colour change happens to the sample. The number of tablets used to force the colour change are entered into a simple formula to obtain the test result.

Measurement-Range extendable by dilution:

(0 - 5000 mg/l Cl⁻)

Contents:

- Chloride Test Reagents 100 tablets
- Black plastic carrying case with a foam insert
- 1 x 100ml shaker tube
- Plastic stirring rod
- Cleaning brush
- Printed manual
