

pH Test Strips 0-14

Item no.: 161166451

Measures pH values in the range of 0 to 14.

Take one strip from the case and dip it into your solution. The strip colours will change almost instantly. Quickly match these colours against the colour chart on the case to obtain the pH.

Store the pH strips in their original packaging and in a cool, dry place away from sunlight.

Contents:

- 100 strips Universal Indicator paper
