

PrimeLab 2.0: Wall-Wash Test Kit

161166911 · Wall Wash Test Kit Complete (PL02B-TWTK)

The Primelab 2.0 offers more than 140 different parameters / methods.

Photometers for electronic and **highly accurate** determination of water values are standard equipment in every laboratory. Primelab offers high-precision readings due to **18 different wavelengths**, WiFi-USB-Bluetooth®-GSM connection, with a HD touch display and the possibility to connect electrodes

Parameters:

- Chloride / 0 - 100 mg/l- liquid
- Chloride in Methanol / yes-no - liquid
- Color / 0 - 500 mg/l - no reagents
- Hydrocarbons in Methanol / yes-no - Adaptor - no reagents
- Permanganate Time Test / 0 - 100% T - tablet
- NTU Turbidity 0.5 - 1000 NT

Contents:

- Professional aluminium carrying case (trolley) with foam inserts
- Special user-manual "Tank-Wash-test-Kit"

① Special Tank-Wash-Test-Kit Equipment:

- **1 x 4-liter portable fridge** (12/220V).
Cools down up to 25°C below outside temperature.
- **1 x Digital Thermostate connector** to regulate temperature of 4-liter portable fridge.
- **1 x international plug-switch with USB-ports**
- **1 x sealed 10ml (24mm) glass vial**
with 10ml reagent grade methanol.
- **5 x 100ml shaker/dilution tube** (SVZdev100)

② PrimeLab 2.0 kit:

- **PrimeLab 2.0 Multitest Photometer-kit:**
1 x PrimeLab 2.0 Multitest Photometer
with screwed in 24mm adaptor
