Who We Are

1974	1988	2016	2018	2019	2022
Founders journey begins in the industry	Unimarine established in Greece	Headquarters relocated to Cyprus	Unimarine Spain Blending Facility	Unimarine established in Dubai	Unimarine Blending Facility in Dubai

Industries We Supply:

- Commercial Shipping Fleets
- Offshore Supply Vessels
- Tanker & Bulk Operators
- Cruise Lines
- Ship Chandlers

Trusted by Leaders in Maritime:

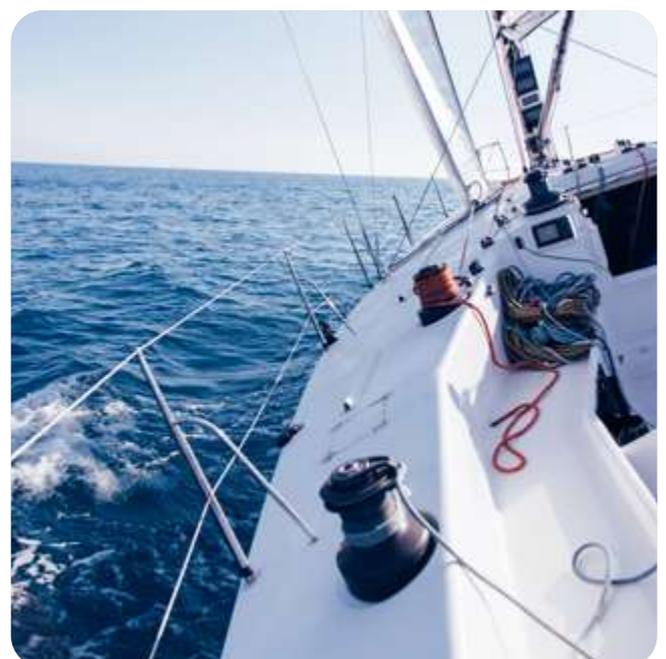

- Maersk
- Dynacom
- Columbia Shipmanagement
- Keep connected through our [Unimarine LinkedIn page](#)

Unimarine Group – At a Glance

Founded in 1974, Unimarine Group is a **global** manufacturer and supplier of **marine chemicals, refrigerants, gases, cleaning and technical equipment**, serving commercial shipping and offshore industries.

With over **980 port** service points, our network spans to over **45 countries**. Our main offices are located in **Cyprus**, with branches reaching to **Greece, Dubai and Spain**, the latter two operating our own **Unimarine blending facilities**.

Alongside an international network of partners, we deliver **cost-effective, fast, and quality-assured solutions** to vessels around the world.

Our Main Hubs

45 countries / 980 ports

FUEL OIL CHEMICALS

HEAVY FUEL OIL TREATMENT & FIRE SIDE CHEMICALS

- Soot Remover Liquid** Removes soot / carbon deposits on fire side.
- Soot Remover Powder** Removes soot / carbon deposits on fire side.
- Vanasolvent** Vanadium / Sodium conditioner, prevents corrosion.
- FOT Catalyst** Combustion improver, reduces carbon deposits.
- FOT Cold Flow Improver** Polymeric additive that improves the cold flow properties of middle distillates.

DISTILLATE FUEL TREATMENT CHEMICALS

- FOT Bio Control** Microbiological control agent used in lube oil and fuel oil systems.
- FOT Dual Purpose** Sludge conditioner and dispersant for fuel oil used in diesel engines & boilers.
- FOT LI 4100** Lubricity improver for gas oil, diesel oil and middle distillates.

BIOCHEMICALS

- Microzyme Liquid**  Environmentally superior sanitation treatment & cleaner.
- Microzyme Powder**  Enviro sanitation treatment in powder form.
- Microzyme TC Liquid**  Bacteria based product for sanitation treatment & cleaning (Enviro).

 Environmental product

CLEANING & MAINTENANCE / OIL SPILL CHEMICALS

Air Cooler Cleaner	Liquid cleaner containing solvents and surface-active agents for on-line and off-line cleaning of charge air coolers.
Carbon Remover	Solvent emulsifier for removal of carbonaceous deposits.
Cold Wash GP Degreaser	General purpose emulsifier cleaner
Antifoam/Defoamer Liquid	Used to remove foam in water-based systems and collecting tanks in vacuum toilet systems.
Descaling Liquid	Liquid descaler for water scale.
Uriclean HD Drain Pipe Cleaner	Liquid treatment used to remove build up of inorganic scale in vacuum toilet piping systems.
Ecoclean 	Envirocleaner degreaser (Enviro).
Ecodis Oil Spill Dispersant Type 1.	Low toxicity biodegradable oil spill dispersant.
Filter Clean	Liquid cleaner for removing partially carbonized oil in oil coolers and filters.
Genepol Multi Cleaner	General purpose biodegradable cleaner.
Hand Cleaner Paste	Waterless hand cleaner.
Hand Cleaner Liquid	Gel-based skin cleaner.
Lectroclean Fast	Fast-drying electrical parts cleaner.
Lectroclean Slow	General purpose, slow-drying degreasing solvent and electrical parts cleaner.
Liquid Soap	General purpose biodegradable cleaner.

CLEANING & MAINTENANCE / OIL SPILL CHEMICALS

Lube Oil Separator Cleaner	Disc cleaner & acid degreaser.
Rust Converter	Neutralises the corrosion.
Rust Remover	Liquid detergent - containing phosphoric acid & non-ionic surfactants for cleaning non-ferrous metals and rust stain removal.
Safe Descaler Powder	Powder descaler for water scale.
Stainless Steel Passivating Liquid	For passivating stainless steel tanks, pipelines etc.
Stainless Steel Pickling Liquid	For pickling stainless steel tanks, pipelines etc.
Teak Renewer / Oxalic Acid	Teak Renewer / Oxalic Acid is used to remove wood discoloration commonly found on untreated teak, mahogany or oak decking.
Uniclean HD	Deodorizer liquid for inner gas residues.
Uniclean Break	Tank & Bilge Water cleaner separating oil / water.
Ultrasonic Multicleaner 	Multipurpose cleaning liquid for use in ultrasonic baths and cleaning machines.
Uniclean Electro 	Odorless, non-emulsifying, non-conductive electric cleaner.
Uniclean GP Extra 	Water-based general purpose degreaser (Enviro).
Ecosperse Plus 	Anti-foulant and corrosion inhibitor for sea water cooling systems.
Uniclean OSD Enviro R2USE	Neutral detergent for general use (Enviro).

Type 2 & 3.

TANK CLEANING CHEMICALS

Air Fresh WB	Water-based liquid to eliminate unpleasant smells in tanks and domestic areas.
Alkaclean Liquid	(Potassium Based) Heavy-duty alkaline cleaner.

 Environmental product

Alkaclean HD	(Sodium Based) Heavy-duty alkaline cleaner.
Alkaclean Safety	Advanced ecological non-caustic tank cleaning compound.
Bufferclean 5.5 CONC	To remove traces of lead, hydrocarbons, chlorides and sulfites from zinc-silicate coated tanks.
Coal Tar Remover	Removal of coal tar, crude benzene, bitumen.
Marisol	Medium duty water-based cleaning agent containing alkaline salts and surfactants.
Seaclean	Powerful tank cleaner with petroleum solvents and emulsifying agents.
Uniclean HD - Inter Gas Residues	Liquid cleaner for removing partially carbonized oil in oil coolers and filters.
Uniclean Tank Bright	General purpose biodegradable cleaner.
Uniclean Tank / Separating	Waterless hand cleaner.
Waterbased Neutral HCF	Gel-based skin cleaner.

CARGO HOLD CLEANING CHEMICALS

Alkaclean HD / PC Cleaner	Heavy-duty alkaline cleaner.
Alkaclean HD / PC Cleaner / High Foam	Heavy-duty alkaline cleaner with extra foam.
Bauxite Remover	Ideal for removal of Bauxite deposits.
Cement Remover	Powder descaler for water scale.
Foam Plus	Suitable for use with our water-based alkaline cleaning chemicals.
Lime Cleaner	Removing lime from iron and steel surfaces.
Pet Coke Cleaner	Effective liquid product for pet coke removal.
EC Coat Barrier 	Water-based liquid specially formulated to leave a thin temporary film on cargo hold.

* All Tank Cleaning Raw Materials are available upon request

WATER TREATMENT CHEMICALS

BOILER WATER TREATMENT CHEMICALS

Alkalinity Control

Boiler water conditioner.

BWT One Shot

Combined boiler water conditioner.

Condensate Control

Steam & condensate conditioner.

Hardness Control

Boiler water conditioner.

Hydrazide

Oxygen Scavenger Direct replacement of Hydrazine.

Liquid Coagulant

Oil and sludge conditioner.

Oxygen Control

A catalyzed sodium bisulfite in powder or liquid form.

OBWT - 3

Organic boiler water treatment for pH, corrosion, scale and sludge control.

OBWT - 4

Organic oxygen scavenger and corrosion inhibitor for feed water, steam lines and condensate systems.

COOLING WATER TREATMENT CHEMICALS

Antifreeze Liquid

A special product, containing ethylene-glycol, sequestering agents and other anticorrosive compounds.

Ecosperse Plus

Anti-foulant and corrosion inhibitor for sea water cooling systems.

NCLT - Diesel Engine Water Treatment

Corrosion and scale inhibitor for closed circuit cooling water systems.

WATER PRODUCTION TREATMENT CHEMICALS

Cal. Hypochlorite Granulate

A special product, containing ethylene-glycol, sequestering agents and other anticorrosive compounds.

CHLOR 12

Anti-foulant and corrosion inhibitor for sea water cooling systems.

Evaporator Antifoam / Defoamer Liquid

Corrosion and scale inhibitor for closed circuit cooling water systems.

WATER PRODUCTION TREATMENT CHEMICALS

Liquivap	Liquid compound containing synthetic polymers, sequestering and anti-foaming agents for prevention of scale in evaporators.
Osmo Disinfectant	Disinfectant of R.O Membranes.
PAC 18 (Poly Aluminum Chloride 18%)	Iron-free, completely safe for the environment.
Potable Water Stabiliser	Eliminates "Red" potable water.
RO Bisulphite 38-40% Liquid	Sodium hydrogen sulphite solution (sodium bisulphite) used to preserve RO membranes and as a de-chlorinating agent.
RO-Osmo Clean (Acid Cleaner) - 2	(Acid Cleaner) RO-Membrane Cleaner.
RO-Osmo Clean (Alkaline Cleaner) - 3	RO-Membrane Cleaner.
RO-Osmo Clean - 10 / RO Antiscalant	A broad spectrum scale inhibitor for Reverse Osmosis systems.
Salt Tablets	Raises calcium hardness of pool and spa water.

POOL CHEMICALS

Chlorine Tablets	Desinfectant for portable water system & sewage system.
Melbrome Bromine Tablets	Used to control microbiological activity on pools, spas and effluent waters. NOT for use in potable water.
PH Minus - HCL 33-35%	Potable Water Grade - Acid etching, steel pickling, oil & gas, ore & mineral, food processing, organic chemical synthesis.
PH Plus	pH increaser.
Pool & Spa Hardness	Raises calcium hardness of pool and spa water.
Pool Clarifier	Highly concentrated product based on specially formulated polymers - quickly clears cloudy water.
SPA Antifoam / Defoamer Liquid	Eliminates unsightly foam from spa water.

BALLAST WATER TREATMENT CHEMICALS

Ballast Tank Corrosion Inhibitor

Blend of organic and inorganic inhibitors.

Mud & Slit Dispersant

Liquid organic polyelectrolyte, conditioner for mud and silt in ballast tanks.

BALLAST WATER DECHLORINATION

Sodium Bisulphite Powder

Sodium Metabisulphite Powder

Sodium Bisulphite Solution 38-40%

Sodium Sulphite Powder

Sodium Hypochloride Solution 12-15%

Sodium Thiosulphate Solution 30%

Sodium Thiosulphate Pentahydrate of Purity 99%

Sodium Thiosulphate Powder of Purity 99%

SCRUBBERS TREATMENT CHEMICALS

Caustic Soda (Sodium Hydroxide)

50% Solution - used with many SOX Abatement technologies, mainly Scrubber Systems that are located in the exhaust.

Magnesium Hydroxide Mg(OH)₂

For acid neutralization, wastewater treatment, heavy metal precipitation, odor & corrosion reduction in sewage systems.

Magnesium Oxide Caustic / MgO

Scrubbers working with Magnesium Oxide as alkali in closed loop, are considered safer than those with caustic soda.

Urea Marine Solution 40%

Used in selective catalytic reduction (SCR) to reduce oxide emissions from the exhaust of diesel engined motor vehicles.

OFFSHORE OIL & GAS CHEMICALS

UNI WATER WEB APP

DATA TRACKING & ANALYSIS

Designed as a modern **web-based** application, **UniWater** allows for **smarter boiler & cooling water management**. Users can view the same current information from **any device, at any time**.

Instantly receive actionable recommendations. Get a complete overview of all your important vessels and maintain **a record of all results** in one place, enabling you to focus on what matters most.

CARGO & TANK CLEANING

WHY UNIMARINE?

Global Network

We can provide cleaning crews all over the world.

Stainless Steel Specialized

Chemicals specifically designed for stainless-steel metals.

Photometer Wall Wash Testing

Advanced photometers for multi-parameter water testing.

WHAT WE OFFER:

Cargo Hold Cleaning

Tank Cleaning

Pre-drydock Preparation

Desloping & Demucking

Testing & Certifying

Stainless Steel Treatment

Cargo Hold and Tank Cleaning is a critical environmental and regulatory obligation.

Unimarine provides **IMO-approved, biodegradable** and **non-toxic** cleaning chemicals, ensuring compliance with **international standards**.

Backed by a **skilled team of experts**, we support shipowners, charterers, and vessel operators in maintaining **regulatory adherence** and **environmental integrity**.
