To Whom It May Concern

Substitute chemicals to replace CLF 35

This is to inform you that our chlorination chemical CLF 35 (item number CHGURG0340) for RWO WWT LC and CS BIO units currently cannot be supplied by RWO. Availability is not given for the foreseeable future.

Therefore we confirm that the following chemicals can be used as substitute:

- SODIUM HYPOCHLORITE SOLUTION 12 - 15%, Product Code #: 833012 (30 lt)
Supplier: Marichem Marigases Hellas SA
- CHLOR 12, Product code : UNI024
Supplier: Uniclean Chemical & Gases LTD – Unimarine Group

Please see attached the relevant MSDS.

Kind regards.
